SUMMARY

Full-stack developer with five years of experience building and shipping production web applications across cryptocurrency payments, AI-assisted legal tools, and multi-tenant e-commerce, using React, TypeScript, and Node.js. Currently the founder of Kodikas, where I design, build, and deploy SaaS products end to end. Open to senior remote roles globally and to relocation.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React, Next.js, React Native, Redux Toolkit, TanStack Query, React Router, React Intl, Tailwind, MUI, HTML5/CSS3

Backend: Node.js, Express.js, MongoDB/Mongoose, REST APIs, JWT Authentication, WebSockets

Cloud & Tools: AWS (EC2, S3, Load Balancers), Azure, Docker, CI/CD, Git/GitHub/GitLab, Swagger, Postman, JIRA, Agile

EXPERIENCE

Kodikas

Jan 2026 – Present

Founder & Full-Stack Developer

Remote · India

- Founded an independent software studio; single-handedly designed, built, and deployed multiple production SaaS products across frontend, backend, and infrastructure.
- Built a three-portal, multi-tenant e-commerce platform end to end: a customer storefront ([shop.kodikas.in](#)), a merchant portal for shop setup, sales, and analytics ([partner.kodikas.in](#)), and a super-admin console with oversight of all stores and tiered subscription billing — using React, TypeScript, and Node.js.
- Built and launched the Kodikas studio site ([kodikas.in](#)) with in-browser PDF, image, video, and JSON utilities; SEO-optimised with Next.js.
- Built and launched New Sarkari Result ([newsarkariresult.org](#)), a government-jobs information platform (notifications, results, admit cards) serving job seekers across India.

FiftyFiveTechnologies Pvt. Ltd.

Nov 2023 – Sep 2025

Software Developer

India

Quickbit — secure cryptocurrency payment platform for merchant crypto acceptance and bank-to-crypto transactions under compliance workflows.

- Developed key features enabling merchant integration and bank-to-crypto transactions adhering to cryptocurrency compliance standards.
- Built responsive interfaces in React and TypeScript; integrated REST APIs across payment services with JWT authentication.

Logical Contracts — AI-powered legal contract platform with real-time collaboration and AI-assisted drafting.

- Led frontend development and the feature-delivery lifecycle as Frontend Lead.
- Built a real-time collaborative editor supporting 20+ simultaneous users and handling 100+ page contracts.
- Integrated OpenAI for AI-assisted contract drafting; reduced page load time by 45% and achieved 80% test coverage, significantly cutting production bugs.

Softworld (India) Pvt. Ltd.

Aug 2022 – May 2023

React Developer → **Team Lead, SwilMart**

India

SwilMart (Admin, B2B, B2C portals) — multi-tenant e-commerce ecosystem with order management, inventory tracking, and merchant onboarding.

- Hired as React Developer; promoted to Team Lead, leading a cross-functional team of 7 and reporting directly to the founder.
- Architected the multi-portal system; built merchant onboarding and shop-management modules with real-time order tracking and inventory management.
- Integrated POS and delivery systems via microservices; improved API response time by ~50% through query optimisation and caching.

Swil ERP Admin — enterprise ERP admin platform for permissions, workflows, and operational data.

- Built a role & permission system managing 4,800+ variables using a dynamic RBAC architecture.
- Reduced form-submission errors by ~75% through advanced validation; improved admin workflow efficiency by ~40% using caching strategies.

Celebal Technology Pvt. Ltd.

Jul 2021 – Aug 2022

Associate Software Developer

India

- Built an HR engagement and hiring-workflow application (manager-driven vacancy descriptions, HR verification, social-media posting) with Zoho database integration for employee status and profiles.
- Built a TATA Motors employee-request portal for leave approval workflows and COVID-vaccination tracking.

Eniacoder Pvt. Ltd.

Apr 2020 – Mar 2021

Developer

Jaipur, India

- Built web and mobile dating applications: authentication, Redux state management, favourites, tiered Silver/Gold profiles, and Razorpay payment-gateway integration for membership upgrades.

OPEN SOURCE

Contributed initial Hindi locale support to **wanasit/chrono**, a widely-used natural-language date parser (open PR #645).

EDUCATION

B.Tech, Arya Institute of Engineering and Technology — 2021
